We Want to Be a Partner in EPA's
National Partnership for Environmental Priorities

IDENTIFYING INFORMATION

Name of Organization: Wyandotte High School
Facility Name: Wyandotte High School
Principal Contact: Dr. Gary Anderson
Title: District Science Coordinator
Authorizing Official: Mr. Walter Thompson
Title: Principal
Address: 2501 Minnesota Avenue
City/State/Zip: Kansas City, KS 66102
Phone/Fax: (913) 627-7600
Email: wathomp@kcpks.org
EPA RCRA ID Number: KSD120787908
Date: September 19, 2007

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Mercury **CASRN:** 7439-97-6
Narrative description of proposed project: Wyandotte High School is taking the Mercury Challenge. We will inventory, collect, and remove all mercury thermometers and barometers from the classrooms. There are 155 thermometers and 1 barometer at Wyandotte High School.
How we will measure success: We will track the amount of mercury removed from Wyandotte High School.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 5 pounds in September, 2007 (month/year) to a reduced amount of 0 pounds generated/used by December, 2007 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

_____	Equipment or technology modifications.	_____	Process or procedure modifications.
_____	Reformulation or redesign of products.	_____	Substitution of less toxic raw materials.
_____	Improvements in inventory control.	_____	Improvements in maintenance/housekeeping practices.
X	Other (describe): See proposed project narrative.		

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- _____ Direct use/reuse in a process to make a product.
- _____ Processing the waste to recover or regenerate a usable product.
- _____ Using/reusing waste as a substitute for a commercial product.
- _____ Other (describe): _____

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). X Yes _____ No

Please use supplemental sheets for additional goals.
